

Wellen in leuchtenden Nachwolken

Interne Wellen in der Straße von Messina

# ILWAO: „International Leibniz Graduate School for Waves and Turbulence in the Atmosphere and Ocean“

**Blockseminar im Sommersemester 2018**

8. Juni 2018, 14-17 Uhr

Ort: IAP, Kühlungsborn

Beginn: 14:00 Uhr (**Achtung:** s.t.)

- Dr. Hanli Liu (NCAR, Boulder, USA)  
„Large wind shears and their implications for diffusion in regions with enhanced static stability:  
The Mesopause and the tropopause“
- Dr. Knut Klingbeil (IOW)  
„Generalized Thickness-Weighted Averaging“
- Kristine John (LSM)  
„Compresses sensing for time resolved MRI flow measurements“
- Dr. Irina Strelnikova (IAP Kühlungsborn)  
„Observations of gravity waves by lidar “

Prof. F.-J. Lübken, Prof. H. Burchard, Prof. A. Leder, Prof. S. Grundmann,  
im Namen aller beteiligten Lehrkräfte.
